Lua Hadar (with Twist) - LUA HADAR

WITH TWIST: If you find yourself in the mood for something slightly "different", you'll enjoy this 2nd CD from Lua... her vocals are highly energized & the players have a wonderfully engaging flow & presence that will immerse you in her "jazz world" quite pleasantly! Nice video presentation [YOUTUBE](#) that will give you a good feel for what the album will bring you, though the recording provides a lot better ambience than

the vid. Listen to a sample of "[Floating Where I Have Never Been \(Je Vôle\)](#)" to hear why I found her so very enchanting... Hadar has a real talent for wrapping you in with her unique vocals, & she sounds like she (just) lives for the music! With such a versatile performer, you'll find this CD is a most welcome addition to collections that focus in on well-crafted jazz with high soulfulness and spirit. A very nice 40-minute interlude that you'll listen to over & over, this album gets a HIGHLY RECOMMENDED from our ears! Get more detail from her website at www.luahadar.com
